FACULTY

Principal's Message

To the Students and Teachers of Linville High School.

I feel complimented to have the opportunity of writing a message in the '58 Stinger. Each year I feel that the responsibilities of both teachers and students are getting greater. May we by hard work and study meet our task with a crowning success.

Our school is small and we are glad of that for the greatest values are sometimes wrapped in smallest of packages. The students and teachers of our school are bound by attributes that take in more than just the text books. We all feel a loss when the time comes for our seniors to graduate. Our joy in them is the feeling they will carry on in the world as an enlightened citizen and put God first in all their undertakings.

Sincerely yours,

Alton A. Hollis
